S. Comments:B. Stewart reported at scale that he was disappointed in the efforts of his mount, adding that whilst it normally likes to lead, the gelding did not travel well throughout the race. A post-race veterinary examination revealed the gelding to be exhibiting an abnormal respiratory noise. Trainer C. Jordan was advised that a veterinary clearance, including the results of an endoscopic examination, will have to be provided before the horse races again.

The mare continued to race ungenerously from that point onwards and proved difficult to handle throughout the event. Trainer S. He indicated that the horse, after failing to respond to his riding in the early stages of the home straight, became awkward in its action and for this reason he did not ride the horse out over the final 200m. He added that in his opinion the horse did not handle the rain-affected conditions. A post-race veterinary examination revealed the filly to have a slow post-race recovery.

Hammersley explained that he was of the view that the better part of the track was three to four horses wide and for this reason he elected to shift out rounding the home turn, however, when STANLEY shifted out under pressure in the home straight, he was forced wider on the track than he had anticipated.
