A post race veterinary examination revealed the horse had bled from its near-side nostril. Connections were advised that an endoscopic examination must be performed on the mare, and a veterinary clearance must be provided, including a 1000m gallop before stewards prior to its next race start.

S. Comments:Connections advised it would be the intention that the horse secure a more forward position. Attempted to go forward from a wide gate, however, when left awkwardly placed four wide near the 1100m, was then restrained to a trailing position. When asked to comment on the horse's performance, apprentice B. Nothdurft stated that whilst he was satisfied he occupied a good forward trailing position, and whilst he believed the horse felt comfortable on today's firmer surface, it failed to respond to his riding over the final 600m. Vetted and found to have cardiac arrhythmia.

S. Comments:Jumped awkwardly and made contact with another runner. Finished tailed off. M. McGillivray reported that at no stage did the horse travel comfortably and was under pressure from the 600m onwards. Trainer S. Kendrick indicated that he was at a loss to explain the performance, adding that he expected a forward showing on the horse's work. He advised that the horse will undergo an endoscopic examination in ensuing days, the finding of which he will report to stewards. A post-race veterinary examination revealed no significant findings.

S. Comments:Rider questioned re tactics. He stated the filly began fairly, however was reluctant to muster speed in the early stages and therefore settled further back than intended. He added the filly raced somewhat awkwardly in the early stages when in a trailing position and coming to the home turn, when attempting to shift out to improve, made contact with FOXARELLI and was slightly held up passing the 400m. D. Browne further stated that he elected to shift back inside those runners and the filly finished the race off quite well and in his opinion may even appreciate longer races.
