She stated that, in her opinion, the horse had performed below expectations at its most recent 2 starts as a result failing to handle the heavy 10 track conditions. She added that in today's event she had removed the blinkers from the horse's gear and she felt this had assisted in having the horse settle during the middle stages of the race which she felt had a beneficial effect on the overall performance.

S. Comments:Slow to begin. Raced erratically in the early stages and shifted out abruptly near the 900m despite the efforts of its rider and then continued to race fiercely and hung out when racing four wide without cover. Hung out in the home straight. A post-race veterinary examination revealed lacerations to the inside of both cheeks. Trainer C. Munce was advised that the gelding must compete in a trial to the satisfaction of stewards prior to being permitted to race again.

| S. Comments:Rider questioned re his riding of the gelding rounding the home turn and in the home straight. He said when SCHWEID AS shifted outside of PALEONTOLOGIST soon after straightening he altered course its inside, anticipating there would be sufficient room to the inside of ZARAFET when he improved passing the 200m. He said soon afterwards ZARAFET, when struck with the whip, moved back inwards so he then elected to shift off that runner's heels trailing PALEONTOLOGIST and over the final stages he was awkwardly placed at the heels of that runner and for this reason did not ride in his normal manner. |                       |          |                                                                                       |

He added that the horse also laid in under pressure in the home straight.

S. Comments:When questioned regarding the run, apprentice A. Thompson stated it was his instructions to race in a forward position, however, after working to a three wide position he elected to push forward approaching the 800m to the outside of the leader. As a result, he was then reluctant to overly restrain his mount as it had previously had a tendency to get its head up in track work when being restrained. He added that he would have preferred to have obtained a position on the rail or sitting off the header, however, he was unable to do so and the horse thereafter gave ground in the straight. Trainer
