When placed under pressure failed to respond as expected and only found the line fairly. Stable rep stated gelding performs best when able to settle in a more forward position. Therefore they would step it up in distance in the hope that it could then settle closer to the speed. Post race vet failed to reveal any abnormalities.			\$16,000 \$10,400 \$2.30 \$2.10 \$2.10F In Running: /3/3

S. Comments:Questioned re: performance - rider stated intention was to settle in a forward position however after being fractious in the barriers his mount began awkwardly and settled in a midfield position. Then travelled only fairly and when placed under pressure failed to respond and proved disappointing in the run to the line. Post race vet revealed the gelding to be suffering from the onset of a viral infection. Trainer expressed disappointment in performance and advised that it would be spelled immediately.

S. Comments:Inquiry re tactics adopted, which appeared in contrast to the mare's previous 2 starts. Rider advised she was instructed to position the mare where it was comfortable, adding at its previous start it raced towards the rear of the field from a wide alley. She added it was not her intention to lead today, however after beginning well from a wide barrier she allowed it to stride forward to take up the leading position rather than risk being caught wide in the early stages of the race. The explanation was noted.

He added that the gelding never travelled strongly on the bit throughout the event and proved disappointing in the home straight.

Comments:R Wilson questioned re tactics adopted as the horse led in today's event, which is in contrast to the horse's most recent racing pattern.He indicated that this was the horse's first start over more than a 1000m this preparation and as there was a lack of pace in the event and as the horse has had a tendency to be slow to begin at its most recent starts, he instructed S Elbeck to be aggressive in the early stages however, did not instruct her to lead. Mr Wilson was reprimanded and advised that in similar circumstances he would be expected to approach stewards with instructions of this nature.

Trainer q'd: stated that on return to scale that the gelding had removed its tongue from its tongue tie after leaving the enclosure. Stated that the gelding performs best with its tongue tie and in his opinion is an essential part of the gear. Added-he would add a tongue control bit to the horses gear for its next start.
