Had a tendency to race keenly from the 1200m to nearing the 1000m. Apprentice E. Ljung advised that after beginning awkwardly and being caught wide in the early stages, her mount eventually settled near the 1000m and obtained a comfortable run for the remainder of the event, however when placed under pressure failed to respond to her riding and in her opinion proved disappointing. S. Comments:Questioned re performance, rider stated that with blinkers added to the gear he intended on settling in a forward position however his was unable to muster early speed and settled further back. Added that his mount started to work into a sprint rounding the home turn however he was obliged to strop riding it along when it was tightened for room at the entrance to the straight. Added that failed to sprint from this point and was disappointing in its run to the line. A vet exam did not reveal any abnormality.
