S. Comments:Trainer B. Baldwin was afforded the opportunity to explain the improved performance. He said that at the horse's previous start from a good draw it gained a favourable position early, however was shuffled back in running to a rearward position before being shifted wider and finishing the race off nicely. He added prior to that the horse raced over a shorter distance and had previously shown disappointing performances on rain affected tracks. Mr Baldwin added with today's increase in distance and the horse dropping back in class the filly performed favourably as he expected.

S. Comments:A veterinary examination of the horse, which was kicked behind the barriers by the Clerk of the Course's horse, cleared the colt to start.			
Trainer D. Forster was questioned regarding the tactics adopted on the colt in leading in the event, which was in contrast to its normal racing pattern. Miss Forster stated that she had instructed jockey Cahill to ride the gelding positively to the first corner and then if possible to angle the colt off the fence. She added she did not expect the horse to be left in the lead and had hoped it would take up a handy/midfield position.

S. Comments:Stewards asked apprentice J. Orman to comment on the performance of the horse. He indicated he was disappointed, however felt that the performance could be attributed to the horse having its first start this preparation over 1400m, on a rain-affected track, and from the wide barrier he was forced to settle at the rear of the field. He added that when asked for an effort from the 600m, his mount did not respond to his riding. Trainer R.

Heathcote agreed the apprentice Orman's comments

S. Comments:Slow to begin. Held up rounding the home turn. When questioned regarding the horse's performance apprentice B. Grylls stated that after beginning awkwardly, her mount was positioned further back in the field than she would have liked, and then after being slightly held up on the home turn the horse did not stretch out comfortably, which she felt could perhaps be attributed to the firm racing surface.
