 S. Comments:Questioned re: performance - rider state intention to obtain forward position however, shortly after start when it was apparent there would be a strong tempo she elected to settle just worse than midfield. Horse then travelled comfortably in early and middle stages but responded only fairly when urged along leaving 800m and was one paced in the run to the line. In rider's opinion filly failed to run out the distance under the top weight of 59kg. Post race vet failed to reveal any abnormalities.

S. Comments:Near the 1000m had to be steadied from heels. Questioned re tactics and overall performance - Rider instructed to obtain handy position, began fairly and attempted to push forward, unable to must early speed and was caught wide so restrained to obtain cover and raced further back than anticipated. Did not feel comfortable in action, laid in behind other runners when asked to improve passing 500m and proved dissappointing. Trainer noted addition of concussion plates as mare had experienced hoof issues previously. Mare would be sent for a spell. Vetted - found to have a slow recovery rate.

S. Comments:Questioned re: performance - rider stated after beginning only fairly rode mare along in effort to obtain forward position however, failed to muster speed and forced to settle further back than expected. Travelled well during early and middle stages and when placed under pressure passing 500m responded well and finished the race off strongly. Rider was of the view that mare is unable to sit and sprint strongly and as such was not suited when forced to race back in the field.
