An initial post-race veterinary examination of the gelding which weakened noticeably over the concluding stages found the gelding to be displaying an elevated respiratory and heart rate. Upon returning to treat the horse a further veterinary examination revealed the gelding to have blood present in both nostrils. This could not be contributed to an external trauma therefore Trainer was advised the gelding will now undergo a mandatory 3 month suspension under AR53A(4) and will be required to gallop 1000m in the presence of stewards prior to resuming racing. | | | |

| S. Comments:Reluctant to load into barriers. When questioned regarding the poor performance Jockey explained that he had been instructed to ride the gelding vigorously early in an attempt to obtain a forward position. After beginning well he rode his mount along with the whip in an endeavour to comply with his instructions and obtained a leading position. However after passing 800m his mount was under pressure, weakened and was disappointing. Trainer confirmed instructions however expressed disappointment with the performance and said that in light of the poor performance the gelding would now be spelled. | | | |
