s:Bumped on jumping. Weakened over concluding stages to finish tailed off. Rider questioned re performance - stated allowed mare to race in normal racing position at rear of field and at a point passing 600m applied some pressure and it commenced to hang out from that point on. Upon straightening not totally comfortable with its action and therefore did not apply any more pressure over concluding stages. S. Comments:When questioned regarding his riding of the gelding approaching and rounding the home turn, whereby the horse shifted out and allowed a stablemate, BRIGADOON RIDE, to gain a run to his inside, J. Lloyd advised that his mount never travelled in the early stages and had to work hard to reach a position outside the leader at the 800m. He said the horse was under pressure passing the 600m and soon after, on straightening, shifted out when weakening. The explanation was noted. A post-race veterinary examination revealed abrasions to the offside stifle. A swab sample was taken.

S. Comments: When questioned regarding the horse's seemingly improved performance, trainer G. Duncan advised that at its first run back from a spell at Warwick on 26 December 2017, the horse went back from its barrier and when attempting to improve approaching the home turn was forced wider by another runner and lost momentum. He added that given the circumstances of that occasion he was not overly disappointed in its performance, and that with the benefit of that run and being fitter for today's event and with the small field, he gave the gelding a reasonable chance
