He indicated his mount was making an abnormal respiratory noise and then weakened badly over the concluding stages. A post race veterinary examination revealed the horse was making an upper respiratory noise and cardiac arrhythmia. Connections were advised that the horse must undergo an endoscopic examination and an ECG, with results reported to stewards prior to trialling satisfactorily.

After beginning fairly from an awkward gate was unable to muster speed to race in a forward position and therefore Jockey R Plumb elected to restrain his mount to obtain a position towards the rear closer to the rail. Jockey Plumb explained that it was not his intention to race in a rearward position but after being caught wide early he felt this was the best option to give his horse a chance to finish the race off. Raced wide rounding the home turn.

S. Comments:When questioned regarding the horse's improved performance, trainer S. Kendrick stated that the gelding was hampered on jumping at its first start and unable to muster speed over the 900m which he believed was too short for the gelding. He added that since then the horse has trialled and worked well leading up to today's event and as such he stepped the gelding up to a more suitable journey of 1200m. He said he expected a more forward showing today over the further distance and with the wet track, noting that the gelding is bred to handle the wet, and he was not overly surprised by the win.
