An initial post-race veterinary examination of the gelding which weakened noticeably over the concluding stages found the gelding to be displaying an elevated respiratory and heart rate. Upon returning to treat the horse a further veterinary examination revealed the gelding to have blood present in both nostrils. This could not be contributed to an external trauma therefore Trainer was advised the gelding will now undergo a mandatory 3 month suspension under AR53A(4) and will be required to gallop 1000m in the presence of stewards prior to resuming racing.

 S. Comments:Had to be restrained shortly after the start when a runner to its inside shifted in abruptly. Approaching the 700 metres commenced to race ungenerously with its head in the air. Apprentice reported the filly resented the kickback at this point of the race and she was forced to shift wider on the track to obtain clear running and race without cover from this position.
