S. Comments: When questioned regarding the poor performance apprentice explained that his mount travelled comfortable in a prominent position throughout however when placed under pressure in the straight his mount failed to respond and was disappointing. He attributed the poor performance to the gelding's heavy impost of 60kg and added that in his opinion gelding did not appreciate the hard track conditions. A post race veterinary examination of the gelding did not reveal any significant abnormalities.

S. Comments: Stewards questioned trainer relative to the seemingly improved performance. Trainer explained that he had removed the tonque control bit and at its most recent start when ridden by an apprentice gelding settled further back than expected and for this reason he instructed the senior rider engaged today to take up a more forward position. He added that in his opinion the gelding appreciated racing on the dirt track at which it is trained. The explanation was noted however trainer was advised that Stewards expected gelding to now hold its form and race consistently.
