Rider guestioned in relation to her riding after passing the 900m as she had obtained a position outside the lead one off the fence and after being crossed near the 800m then

rounding the home turn he attempted to shift wider on the track to improve and made significant contact with another runner. He felt that following this the horse did not respond to his riding and despite being marginally held up leaving the 400m, did not finish the race off well. S. Comments: Trainer explained that at its last start it raced a more forward than anticipated and received trouble in running, but in her opinion did not finish the race off on the firm track on that occasion. She added that prior to this when first up this preparation PICTURE IT was successful on soft track conditions similar to today, further adding that since its last start the gelding had worked well and by being allowed to race more patiently in a rearward position, she was of the view the manner in which the race was run and the soft track conditions were attributable to the improved performance.

3. Comments. When asked to explain the seemingly improved performance, trainer P. Dulican indicated that at the indises must recent start, in his view, the gelding was ridden quite poorly and when overracing was settled wide on the track. He felt that this had a significant effect on the performance. Mr Duncan added that at the start prior to this the horse did not appreciate the firm racing surface at Dalby on 9 August and he felt that this may explain the improvement on the horse. He was also of the view that the addition of blinkers today was beneficial.
