S. Comments:Inquiry re performance. Rider indicated that despite obtaining the lead, the mare, in his opinion, did not travel comfortably at any stage and proved disappointing when placed under pressure over the concluding stages. He added that the mare may not have appreciated racing in blinkers. A veterinary examination revealed it had pulled up in a distressed state and was suffering from thumps. Poor post race blood result was reported by trainers representative and the mare would undergo treatment prior to next start.

S. Comments:Began awkwardly and shortly after had to be steadied from the heels of Single Gaze, which shifted in. When questioned, J. Collett stated that his mount was inclined to hang out throughout the event and after the 200 metres shifted out abruptly. He added that upon return to scale he had observed his mount's tongue over the bit which he believed was the principal factor in his mount's poor tractability during the event. A post-race veterinary examination of the filly revealed no abnormalities. Trainer Mr B. Cavanough advised that the filly would now be sent for a spell.

S. Comments:Stewards questioned trainer in relation to the horse's improved performance. He advised that first up from a spell on 18 September the gelding raced on a heavy track, which was to its detriment on that occasion and explained the poor performance. He added that the horse jumped out well subsequent to its first-up run and he expected a forward showing today based on that jump out and the fitness benefit the horse would have derived from its first-up start.

He said that not long after, the horse dropped the bit and became detached from the main body of the field. He added that on straightening he was concerned there was something amiss with the colt and for this reason he did not persist in riding it out. He added that not long after the post the horse made an abnormal breathing noise. Trainer reported the horse was found to have slight bruising to its off front heel.
