S. Comments:After dislodging the rider en route to the barriers, the filly jumped the false rail near the 1350m chute, was quickly recaptured, inspected by the veterinary surgeon and passed fit to race. Co-trainer P. Hulbert was questioned regarding the horse's improved performance. He stated that at its previous start the filly did not run on after travelling well and he was of the opinion that it may not have appreciated the track conditions on that occasion. He added that the filly is better suited on rain-affected tracks.

S. Comments:When questioned regarding the horse's disappointing performance, jockey T. Chambers reported that after taking up a forward position the filly did not feel entirely comfortable in its action from the 600m onwards. She added that it was also inclined to lay out throughout. A post-race veterinary examination revealed no significant abnormalities. Trainer M. Mair indicated that he would have his stable veterinary surgeon conduct blood tests on the horse, the results of which he would report to stewards. He added that consideration would be given to sending the filly for a spell.

S. Comments:Raced with its head in the air when being restrained in the early stages. When asked to comment on the horse's performance, J. Byrne indicated that at no stage did the horse travel comfortably, racing with its head in the air in the early stages and near the 850m, when following MOGUL, that horse shifted in and made contact with the running rail. He felt that this caused his mount to shy and lose ground and become very awkward in its action. He indicated that from that point onwards the horse did not respond to his riding and was very disappointing in the run to the line.
