S. Comments:Slow to begin. Raced keenly in the early and middle stages. Below market expectation performance. Apprentice reported the gelding has a history of breathing issues and for that reason, in his opinion, the gelding overracing during the event was the major contributing factor to it failing to run on in the home straight. A post-race veterinary examination revealed the gelding to be making an abnormal respiratory noise. Veterinary certificate required prior to racing again.

S. Comments:Stewards questioned rider J Orman regarding the horse leading today, which contrasts with its most recent racing pattern. He explained that the gelding had trialled well recently in blinkers and settling in a forward position, he added that with the addition of blinkers today, and after beginning well from the wide barrier he allowed the gelding to stride forward to the lead. Trainer K Schweida advised that Mr Orman had no specific instructions and anticipated that he would settle in a handy position with the blinkers. He added that the gelding returned to the enclosure with its tongue over the top of its bit.
