S. Comments:When questioned regarding the poor performance apprentice explained that his mount travelled comfortable in a prominent position throughout however when placed under pressure in the straight his mount failed to respond and was disappointing. He attributed the poor performance to the gelding's heavy impost of 60kg and added that in his opinion gelding did not appreciate the hard track conditions. A post race veterinary examination of the gelding did not reveal any significant abnormalities.

After taking evidence from all parties and viewing the available footage it was established that near the 200m gelding shifted in and bumped second placegetter however bearing in mind the minor nature of the interference and the manner in which both horses ran to the finish stewards could not be comfortably satisfied that had the interference not occurred second placegetter would have beaten gelding and subsequently dismissed the objection.

S. Comments:Stewards questioned trainer relative to the seemingly improved performance. Trainer explained that he had removed the tongue control bit and at its most recent start when ridden by an apprentice gelding settled further back than expected and for this reason he instructed the senior rider engaged today to take up a more forward position. He added that in his opinion the gelding appreciated racing on the dirt track at which it is trained. The explanation was noted however trainer was advised that Stewards expected gelding to now hold its form and race consistently.

S. Comments:Near the 900 metres over raced and had to be steadied off the heels of another runner which shifted in slightly. A short distance later

continued to over race and had to be shifted wider on the track to avoid the heels of the runner in front and in doing so made heavy contact with the runner

to her outside. Apprentice jockey reported that gelding over raced in the early and middle stages and refused to settle. Apprentice jockey further added that the gelding felt awkward in its action on pulling up. A post - race vet exam of gelding did not reveal any abnormalities.
