S. Comments:Rider questioned re tactics, which led to a fast tempo being set in early and middle stages. - rider stated cold had shown early speed at previous start so was instructed to lead if possible. Was of the view that she was going to cross runners to her inside easily near the 900m but one commenced to overrace so she had to press forward in order to obtain a position closer to the fence. Was of the view that this resulted in the colt weakening over the final 200m.

Payne reported to stewards that her mount travelled well coming to the home turn, however when placed under pressure shortly after straightening failed to respond to her riding and weakened badly over the concluding stages. She added the horse was making an abnormal respiratory noise on pulling up. A post race veterinary examination confirmed the presence of this noise, and trainer M. Mair was advised he must have the horse scoped and report the findings to stewards before its next race start.Endoscopic examination revealed the horse to require corrective airway surgery.
