S. Comments:Rider said during the event he had difficulty restraining the horse and that it had not been his intention to ride forward outside the lead. When returning to scale it was noted that the horse's tongue control bit had twisted in its mouth and rider believed this caused the difficulties he had. Tnr. said this is the 3rd time he has used this bit and would now remove this piece of gear from the horse prior to its next start. He also added that it had been his intentions to have the horse settle with cover and he agreed with rider's comments regarding the difficulties with the horse overracing.

S. Comments:Rider reported that after being inclined to hang in in the early stages it commenced to hang out near the 800m, resulting in her racing 3 wide for the remainder of the race. She also added that it raced greenly in the home straight. The trainer indicated that he would experiment with the horse's gear in track work.

Jockey Taylor advised she was attempting to fulfil instructions of which she had been told if her mount was not able to lead she would be expected to make a run from the 800m as the gelding can maintain a long run and does not possess a guick sprint. not responding over the final 300m. She added on return to scale the stablehand handling the horse indicated the filly appeared to have its tongue over the bit and this may have caused the poor performance. Trainer M. Mair indicated that the distance of today's event may not have been suitable for the filly at this stage of its preparation, adding he may trial the horse before its next race start. After being ridden aggressively early to take up a forward position, that after receiving interference near the 600m his mount did not respond to his riding in the home straight and weakened. He felt, the horse may have come to the end of its preparation, and also having stepped back in distance today, this may have affected the horse's performance. Trainer S. S. Comments:Rider said after beginning well he was keen to find cover and therefore allowed BROADWAY LASS to cross. He said the tempo of the race then slowed so he elected to shift out to the outside of the heels of the leader near the 1000m. He said from that point on his mount never travelled comfortably in the soft track conditions and when ROYALTOWN ROAD improved up around him from the 700m, his mount appeared to not appreciate racing inside other runners and despite being placed under pressure did not respond and was most disappointing. Vetted, no significant findings.
