S. Comments:Prior to the declaration of correct weight, Stewards viewed the available patrol films of the start. After doing so, it was established that the filly was fractious prior to the start being effected, and while being assisted by a barrier attendant and the start was effected, threw its head in the air and lost ground. Stewards were of the opinion that the filly was not denied a fair start and correct weight was declared. A post-race veterinary inspection did not reveal any abnormalities.

S. Comments:Rider questioned re tactics in setting fast tempo - rider stated instructed to obtain forward position which she was able to with relative ease in early stages. When EXCITEMENT LEVELS commenced to over race to her outside she was reluctant to overly restrain her mount as she was of the opinion that this would cause it to over race and be detrimental to her chances. As a consequence she allowed it to stride along but noted it was under pressure leaving the 1000m. Stewards advised rider she had erred in not making a greater effort to restrain her mount during the early stages

S. Comments:Raced wide throughout. When questioned regarding its performance, the rider stated that gelding was disappointing. He was mindful that it usually showed pace, however as this was the first time with blinkers, it had failed to race well and suggested to remove the blinkers and step up in distance. Trainer J. McConachy confirmed that the blinkers will be removed for its next race start. A post-race veterinary examination revealed that gelding was displaying a slightly slower recovery rate. A small amount of blood was observed in the back of the horse's throat.

S. Comments:As the start was effected the saddle shifted backwards significantly resulting in the gelding attempting to buck for some distance in the early stages, losing considerable ground and placing him at a significant disadvantage for the remainder of the event. The gelding then raced wide throughout. Stewards inspected the gear of Jockey and found it to be in good working condition.

S. Comments:When questioned regarding her riding of the mare, Apprentice explained that she had been instructed to take up a midfield position, however after beginning awkwardly she rode her mount along to obtain a favourable position, where the mare travelled strongly. However, shortly after straightening she attempted to improve to the inside of another runner but was disappointed for that run and as a result was held up for the entirety of the home straight and went to the finish without being tested. A post-race veterinary examination did not reveal any abnormalities.
