S. Comments:Stewards questioned trainer relative to the seemingly improved performance. Trainer explained that he had removed the tongue control bit and at its most recent start when ridden by an apprentice gelding settled further back than expected and for this reason he instructed the senior rider engaged today to take up a more forward position. He added that in his opinion the gelding appreciated racing on the dirt track at which it is trained. The explanation was noted however trainer was advised that Stewards expected gelding to now hold its form and race consistently.

S. Comments:When questioned in relation to the gelding's seemingly improved performance in today's event as opposed to it's previous start when it raced ungenerously throughout, trainer attributed the improvement to the addition of a cross over noseband and lugging bit, which assisted the gelding to race more tractably today.
