S. Comments:When questioned regarding his riding Apprentice explained that his instructions were not to place undue pressure on his mount in the early stages. He said that after beginning reasonably, when runners to his inside showed superior speed he elected to take up a rearward position closer to the running rail. He added that from the 600 metres his mount was inclined to lay in, and near the 200 metres continued to do so, shifted in despite his efforts and became awkwardly placed on the heels of another runner.

When questioned regarding the performance of the gelding jockey stated that his mount began well and travelled strongly in the early and middle stages. Added his mount failed to respond when placed under pressure passing the 500m and weakened noticeably in its run to the line. Stated that throughout the event his mount was making an abnormal respiratory noise. A post race veterinary examination of the gelding did not reveal any abnormality. Trainer advised that the gelding requires an endoscopic examination prior to its next race start.
