S. Comments:Bumped on jumping and blundered shortly after. When questioned regarding the performance of the gelding the rider stated that his mount performs best when it is able to race in a forward position and sustain a run from the 600m. He stated that after receiving interference in the early stages his mount was obliged to settle at the rear of the field and was unable to adopt those tactics. He added he placed his mount under pressure from the 600m however it was unable to run down the leading pack and went to the line in a fair manner. A post race vet examination did not reveal any abnormality.
