Collett stated that his mount was inclined to hang out throughout the event and after the 200 metres shifted out abruptly. He added that upon return to scale he had observed his mount's tongue over the bit which he believed was the principal factor in his mount's poor tractability during the event. A post-race veterinary examination of the filly revealed no abnormalities. Trainer Mr B. Cavanough advised that the filly would now be sent for a spell.

Rider reported that after suffering interference he was obliged to make a wide run and as a result the mare's condition gave out over the final 100m. The mare, which was resuming today, had suffered from an interrupted preparation due to recent wet weather. Post race vet exam failed to reveal any abnormalities.

Reluctant to restrain to rear of field to obtain cover was travelling comfortably in a wide midfield position. Whilst noting filly was required to cover extra ground he thought 2nd up over 1400m may have explained the disappointing performance. Vet exam - no apparent abnormalities.

S. Comments:Rider reported that gelding travelled well until the 600m after which the horse was briefly tightened for room between two runners and then struggled to make ground from that point onwards and was disappointing. Post race vet failed to reveal any abnormalities. Trainer was of the view the pattern of racing on the day did not suit the gelding's style of racing.
