S. Comments:Had to be steadied from heels near the 1400m. R. Fradd explained that from his wide barrier he was obliged to settle further back in the field than he would have liked and this, coupled with the steady tempo of the race, did not suit the horse. He added that he is of the opinion that the horse is better suited to races over shorter distances with a more genuine speed to allow the horse to travel without having to be restrained. A post-race veterinary examination revealed no significant findings.

Rider explained that after being crossed and obtaining cover in the early stages, his mount then began to race very keenly and as he was unable to restrain it, he had to allow it to shift out and stride forward three wide. He said because of his, when placed under pressure in the straight, it did not finish its race off and was most disappointing.
