S. Comments:Questioned re: performance - rider stated intention was to settle in a forward position however after being fractious in the barriers his mount began awkwardly and settled in a midfield position. Then travelled only fairly and when placed under pressure failed to respond and proved dissapointing in the run to the line. Post race vet revealed the gelding to be suffering from the onset of a viral infection. Trainer expressed dissapointment in performance and advised that it would be spelled immediately.

S. Comments: Passing the 1200 metres improved onto heels and had to be steadied. When questioned regarding his riding approaching the 600 metres, as to whether there was an opportunity to improve earlier than he did, Jockey said that, bearing in mind that the gelding was first-up since January, rather than attempt to sustain a long wide run, he elected to remain racing on the back of another runner, however when that runner did not quicken as expected, he was obliged to shift out rounding the home turn, where the gelding ran home strongly. His explanation was noted.

\$50,000 \$6 \$6 In Running: /8/8

S. Comments:Rider accidentally dropped whip near the 250m. Rider questioned regarding horse's performance. He said the gelding did not begin well and as a result settled at the rear of the field, and after passing the 1200m he had to steady the horse and shifted wider. He added that following this the horse commenced to overrace which resulted in him racing three wide for the remainder of the event. He was of the opinion that these circumstances contributed to the overall performance. Vetted and found to be lame in the near foreleg. Vet clearance must be produced prior to the horse racing again.

S. Comments:Near the 550 metres shifted out and brushed another runner, which was taken outwards. On a number of occasions in the home straight bumped with another runner. When questioned regarding the apparent improved performance, trainer N. Schofield stated that during this preparation he had managed a suspected respiratory condition and following its most recent start had been freshened up and its work load increased. Mr Schofield was of the opinion that the addition of blinkers again had contributed to the gelding's improved performance.

\$16,000 \$3.60 \$3.60 \$3.60 \$1.00 \$3.60

S. Comments:Hampered and forced wider on the home turn. Inquiry re performance. Rider stated that from the wide alley he was instructed to ride the horse in the second half of the field and after enjoying a nice run with cover in the early and middle stages, suffered minor interference rounding the home turn, however was afforded clear running in the home straight. Despite this the gelding failed to run on and, in his view, the overall performance disappointing and he was unable to offer any tangible explanation for the performance.
