S. Comments:Rider stated he was instructed to put the horse in a forward position, however after urging his mount forward out of the barriers, it did not muster speed and, in his view, was not comfortable in the rain affected conditions. He added that from the 600m, the horse hung in, causing him to put the whip in his right hand shortly after entering the home straight. Despite this, the gelding continued to lay in under pressure and was doing its best work over the concluding stages.

S. Comments:Inquiry re the below market expectation performance. Rider stated that the horse travelled well in the conditions until near the 400m and had enjoyed a favourable run throughout the event, however when asked for an effort in the home straight, his mount failed to respond to his riding and was, in his opinion, very disappointing. Vetted with no significant abnormalities detected. Trainer reported that post race the gelding was found to have a blood irregularity and would now undergo treatment. Further blood tests will be performed before the horse starts again.
