S. Comments:Rider questioned re performance, stated that he was obliged to race wide in the early stages and then elected to push forward when the pace slowed to take the position in the lead near the 1200m. He added that this was uncustomary for DEACON and felt that it may have had an effect on the horse's capacity to finish the race off. He further stated that it was dropping back in distance and backing up from its last run a week ago which may have contributed to its disappointing performance. His explanation was noted. Vetted post-race, no abnormalities.

S. Comments:Inquiry re settling forward today in contrast to its most recent starts. Rider said the mare began well and overraced in early and middle stages which, in his view, may be due to racing in pacifiers first time and stepped up in distance to the 1600m. He added it weakened over the final 300m and may be suited to being freshed up and racing over a shorter distances. Trainer said he gave no specific instructions and felt it settled further forward due to lack of early speed in the race. He said he would now freshen the mare up and place it in shorter races. Vetted - no abnormalities.
