performance - stated after receiving interference at start was unable to take up a forward position as anticipated. Added attempted to comply with

instructions and improved forward however, filly failed to show necessary speed and instead of being caught wide elected to obtain a position with cover

towards rear of field. Added filly ran on fairly over concluding stages and in his opinion would appreciate a step up in distance. Vetted - no abnormalities.

S. Comments:Change of tactics. Connections advised that the horse would be ridden further back in the field if circumstances permit. The horse was ridden accordingly. When questioned regarding the seemingly improved performance, trainer J. Zielke explained that the gelding did not appreciate racing in full-cup blinkers and was better suited to wearing a visor. He added also that the dramatic step up in distance was a major contributing factor in the improved performance. The explanation was noted.

S. Comments:Slow to begin. Trainer J. Zielke reported that the horse returned to scale with its tongue over the bit, which, in his opinion, could explain the disappointing performance. He also added he would now experiment with the addition of a tongue-tie to its gear. A post race veterinary examination of the horse failed to reveal any significant abnormalities.
