Hug out in the home straight, causing its rider to stop riding on a number of occasions. M. Cahill dropped his whip near the 250m. M. Cahill reported that his mount was under pressure whilst hanging out rounding the home turn and was very disappointing in the run to the line. He said carrying top weight in today's event may have had a detrimental effect on the overall performance. He added that in his opinion it races best on very firm surfaces. Vetted, slow recovery.

Rider questioned re racing in a rearward position - stated originally his intention to race forward however, after jumping only fairly found himself racing three wide to the outside of FRESPANOL. As such rather than be caught wide he obtained cover following FRESPANOL, expecting that horse to maintain a forward position. Soon afterwards runners to the outside crossed FRESPANOL which resulted in his mount racing further back than he would have liked.

S. Comments:Slow to begin. J. Lloyd said connections wanted to race off the pace, but the gelding overreacted when being steadied shortly after jumping and got its head up and got further back than they had anticipated. He said he was inconvenienced severely when another runner broke down, resulting in him having to take evasive action passing the 600m. He added that he then rode the gelding along in the straight, but it failed to respond and he was not entirely happy with its action so he eased it down in the latter stages. Vetted, lame in the near foreleg. Veterinary clearance prior to racing again.

Fradd advised that the mare had travelled comfortably in a midfield position throughout, however when placed under pressure from the 600m it failed to quicken as he had anticipated and ran on only fairly in the home straight. He added that, in his opinion, the below market expectation performance could be attributed to the step up in weight and distance today, and that the mare did not feel entirely comfortable racing on the rain affected track. Stewards noted the explanation.

electd to take hold and alter course towards running rail in order to save valuable ground rounding home turn. Added held up approaching and passing 200m and when able to get clear mount worked home strongly. Further added had he gone wider rounding home turn would have covered significant extra ground

which would have been detrimental to his mount's chances.
