He added that when placed under pressure the horse carried its head very high and raced greenly and shifted both in and out. He added that, in his view, the horse would benefit from the step up in distance and had recommended to connections to experiment with the addition of either blinkers or winkers.

He indicated pre-race the plan was to attempt to secure cover preferably in a midfield position, however after beginning well it became apparent he would be caught wide he then elected to ride forward to secure a position closer to the fence. He added that the horse was having its first start over 1600m and the mare raced keenly in the middle stages. Stewards accepted the explanation.
