S. Comments:When quest re if there was an opportunity to improve in the middles stages to bridge the gap leader had placed on field, Rdr said mount had a tendency to lay in early and was focused on getting mount to travel comfortably-said was of the view the leader would not be able to sustain extended run and would likely come back to meet the field-added mount failed to finish off race as per its last winning performance but noted had lost its off-fore plate, which may have contributed to performance. A post-race vet exam revealed minor laceration to its inguinal area.

| S. Comments:Bumped on jumping and turned sideways resulting in the gelding settling further back than expected. Raced keenly in the middle stages. A post-race vet exam revealed superficial lacerations to the left fore-leg, consistent with being galloped on.                            |                        |                                  |     |                                         |
