S. Comments:When quest re tactics, Rdr said instruct to be forward & allow gelding to stride freely, however; was required to pressure mount early to obtain lead-said after obtaining lead near 700m, while conscious pace was quick early, was on horse's mouth as much as possible to control speed & mindful of instructs not to restrain as gelding had a history of breathing issues-added instruct to pinch a break coming to h/turn, but could not sustain run. Co-trn confirmed instructs to lead if possible, clarified breathing issue & advised Rdr not to restrain as can cause gelding to flip soft palate. SEE REPORT
