S. Comments:Rdr quest re tactics early when it appeared there was opportunity to allow mount to improve forward closer to leader rather than allow that runner to establish a significant lead-said intention to be forward & gave consideration to improving leader, however as leader's Rdr was having significant difficulty restraining mount, quickly formed view leader would likely be detrimentally affected by this & would weaken late in race. Tnr said gave no specific instructs however, anticipated mare racing forward-added in hindsight, was not of view mare would have finished closer if ridden more forward.
