When questioned re tactics, Rdr explained given no specific instructs other than have filly settle where comfortable-said envisioned more speed shown by outside runners which would have allowed to find a midfield position with cover, but did not eventuate-added near 1400m attempted to secure cover but was unable to do so & caught 3 wide-further said allowed mount to stride to outside lead near 1000m rather than remain 3 wide without cover. Tnr preference was to have filly settle with cover, however given circumstances was not critical of decision to go forward.

When asked about performance, Rdr advised filly, which raced in a forward position, weakened from the 300m-said filly was making an abnormal breathing noise on pulling up after race. A post-race vet exam revealed an upper respiratory noise. Vet clearance, with endoscopic exam results prior to next racing or trialing.
