S. Comments:Questioned re: improved performance stable noted the filly was having its second race start. At its first start the filly, after being slow to begin, suffered interference during the early stages which contributed to its disappointing performance. Stable added that the filly began well today and was able to travel comfortably in a midfield position, which with the addition of blinkers contributed to the improved performance. Trainer reported that the filly suffered a hindleg injury subsequent to this start and was sent for a spell.

S. Comments:Trainer B. Baldwin was afforded the opportunity to explain the improved performance. He said that at the horse's previous start from a good draw it gained a favourable position early, however was shuffled back in running to a rearward position before being shifted wider and finishing the race off nicely. He added prior to that the horse raced over a shorter distance and had previously shown disappointing performances on rain affected tracks. Mr Baldwin added with today's increase in distance and the horse dropping back in class the filly performed favourably as he expected.

S. Comments:Trainer B. Wakefield stated no specific instructions issued to the rider other than to seek cover and attempt to race midfield from its wide barrier being the gelding's first start over this distance. Rider B. Grylls said her mount raced keenly early and she was unable to place it in a position with cover and elected to race near the tail of the field. She added that when the pace steadied near the 1300m the gelding settled and from that point on she had a trailing position, however she was forced to race wide after leaving the 600m. The explanation was noted.

S. Comments:Questioned re the performance, rider stated that his mount began well and established the lead quickly, added that his mount raced keenly in the early and middle stages and was under pressure from the 700m to maintain its position, also stated his mount failed to sprint in the straight and was disappointing. Trainer reported in the days subsequent that the mare had pulled up well and that he would add a tongue tie to its gear as he suspects it may have got its tongue behind the bit during the event. A post race vet exam did not reveal any abnormality.

S. Comments:Commenced to pull hard after leaving the 800m. Apprentice S. Eilbeck was questioned regarding the tactics she adopted after leaving the 600m. She stated that at that stage of the race the mare was travelling well and she elected to ease out to be ready to place pressure on the leaders on straightening, however her mount was then forced to race four wide. Apprentice Eilbeck agreed that she had erred by shifting out at a critical stage of the race near the 500m rather than staying in with cover.

S. Comments:Inq re tactics, in particular why he rode forward when the horse has not been ridden in a forward position in its recent starts, and also remaining away from the fence where it appeared he had opportunity to cross to the fence after passing the 850m. Rider said he thought the track closest to the fence was more rain-affected so he wanted to race away from the fence and shift wider entering the home straight. He said the tactics today were the same instructions given at the last three starts, but after not beginning well was positioned further back in the field. Stewards noted the explanation.

S. Comments:When asked to explain the seemingly improved performance, trainer P. Duncan indicated that at the horse's must recent start, in his view, the gelding was ridden quite poorly and when overracing was settled wide on the track. He felt that this had a significant effect on the performance. Mr Duncan added that at the start prior to this the horse did not appreciate the firm racing surface at Dalby on 9 August and he felt that this may explain the improvement on the horse. He was also of the view that the addition of blinkers today was beneficial.
