S. Comments: When guest re riding in h/straight, in particular, electing to shift wide to obtain clear running, rather than pursue inside run presented near 250m, Rdr explained after racing ungenerously early, which was attributed to Blks off 1st time, mount began to improve in home straight. Initial intentions were to improve into that inside run, but elected to shift wide after runner in front shifted in momentarily & concerned that runner would continue to shift in & would run out of sufficient racing room. After viewing footage Rdr conceded, could have continued attempting to improve into inside run.

S. Comments: When asked about the somewhat improved performance, Tnr explained at its most recent start, mare was caught wide and consequently weakened from the race-said mare was bred to race over further distance, and its first start after a break was over an unsuitable distance of 1200m. followed by its most recent start, where it was caught wide throughout-added distance was more suitable and with the addition of ear muffs, its performance

was not surprising.
