Approaching the 600m, commenced to weaken and took no further competitive part in the event. A post-race vet exam revealed cardiac arrhythmia. Vet clearance, with ECG results and a satisfactory cardiac auscultation vet report post gallop of at least 1000m prior to being permitted to race again.

Comments:When quest reg racing in a forward position, which was in contrast to most recent starts, Rdr stated instructions were similar to recent runs, to pressure gelding from gates in an attempt to be forward-added gelding had been slow away last start & settled back. Tnr confirmed instructs & said instructions were same as previous two starts, whereby gelding has been slowly away & unable to be forward over short distances-added gelding was able to obtain a forward position, which with the step up in distance was beneficial to performance.

He added that he was unable to find a suitable trial or jump out for OKANUI at the beginning of the preparation and so anticipated the gelding would derive benefit from racing and have a forward showing in today's event. He further added that the tempo of the race suited his horse along with being able to settle further forward.
