Murphy was also advised that an endoscopic examination would be required to be undertaken prior to the gelding's return to racing.

Apprentice Bayliss indicated that prior to the start he had anticipated settling in a position behind the lead, however the horse began well and he was able to cross the runner to his immediate inside without overly pressuring his mount, and had anticipated allowing another runner to cross to the lead to obtain a trailing position, however this did not eventuate and he felt he established a steady tempo throughout.

S. Comments:Overraced and proved difficult to ride in the early stages before its rider elected to push forward and assume the lead near the 900m. Put in some awkward strides rounding the home turn, shifted wider and then was eased down over the final 250m. A post-race veterinary examination determined that the filly may have a wind issue. Connections were advised that a veterinary clearance, including the results of an endoscopic examination, would be required, and that the filly must trial to the satisfaction of stewards, prior to returning to racing.
