S. Comments:Hampered at the start. Raced three wide without cover throughout. M. Hellyer reported that the gelding was making an abnormal breathing noise on returning to scale. A post-race veterinary examination revealed the gelding to have lacerations to the near foreleg and near fore cannon. The veterinary surgeon reported that he had been informed by the trainer that the horse returned to the enclosure with its tongue over the bit.

S. Comments:When questioned regarding the horse's seemingly improved performance, trainer B. Witt stated that he had expected the gelding to perform well at its last start, however it had disappointed. He added that the gelding was subsequently found to have been suffering from a virus and as such was treated and freshened up. He further stated that BALIUS appreciated rain-affected tracks and he believed these factors may have contributed to today's improved performance.
