S. Comments:When questioned in relation to the seemingly improved performance, trainer M Morrison advised that in his opinion the mare resented the cross over noseband last start and for that reason he removed this gear from the horse for today's event. Mr Morrison added that the drop back in distance to 900m, where the mare has previously performed well, was also a major contributing factor to the improved performance. Stewards noted the explanation.

Rider reported that after obtaining a position behind the lead in the early stages, ended up racing further back after ALDERMAN restrained to allow DAULAT TAI PANAZIZ to cross. She added that her mount was disadvantaged by the slow pace of the race and after obtaining clear running in the straight her mount responded well and ran to the line in a positive manner. A post race veterinary examination failed to reveal any significant abnormalities.
