He added that the gelding was subsequently found to have been suffering from a virus and as such was treated and freshened up. He further stated that BALIUS appreciated rain-affected tracks and he believed these factors may have contributed to today's improved performance.

He said he had expected a forward showing in today's event as he had anticipated the track having more give than at its two most recent starts. He added that the horse has performed well previously racing on similar surfaces. He further added that the gelding was able to obtain the lead without being challenged today and he believed this was also beneficial to the horse's chances. He said he had supported the horse as he believed that having a 3kg claiming apprentice was also a significant factor.
