Thornton expressed his disappointment in the gelding's performance in that it was inclined to lay out for the majority of the race. Trainer S. O'Dea stated that the gelding had worked well leading into the event, which included a pleasing performance in an unofficial barrier trial on Tuesday, 10 July. Mr O'Dea was unable to explain the disappointing performance and undertook to have the gelding examined by the stable veterinarian, the results of which will be forwarded to stewards.

Williams regarding her riding of the mare. Of particular concern was the fact that she led when the horse's racing pattern has been to settle in the second half of the field, and as to why she led after having begun very awkwardly. Miss Williams stated she had been instructed to attempt to settle midfield and rode aggressively out of the barriers after being slow to begin in an attempt to secure that position. Howe

Trainer questioned re improved performance - explained that first start had a tendency to overrace and was slightly inconvenienced rounding home turn and weakened late over the concluding stages. Added following that race of the opinion would improve with that run however, elected to trial prior to racing and in that trial changed the bit and added a tongue tie in an attempt to have the gelding settle better in its races. Further added subsequently trialled well in that gear and was ridden in a similar manner, which including added fitness contributed to improved performance.

S. Comments: J. Lloyd reported at scale that shortly after the start his mount felt uncomfortable in its action and for this reason he elected not to pressure the gelding for the remainder of the event and was eventually eased out of the race in the home straight. A post-race veterinary examination revealed no significant findings and a swab sample was taken. Trainer M. S. Comments: After being loaded into the barriers reared and its rider was dislodged. The horse underwent a veterinary examination and was cleared to start. In this incident the ear muffs on the horse were damaged and as such raced without this gear. A post race veterinary examination failed to reveal any significant abnormalities. Trainer S.
