INSTRUCTIONS

Follow the line across from the rating figures to ascertain the weight a horse will be allocated (subject to top-weight rules) in the various races listed under the different race-types in the headers.

EXAMPLE

A horse rated 79 would have the following weights:

Provincial 1 (Gold Coast) Class 6: 59.5kg. (54kg min.)

Metro. (Sat.) Class 6: 56.5kg. (54kg min.)

Mid-week Metro Class 6: 58.5kg.(54kg. Min.)

All horses are rated and weighted on the template as mature age (4YO+) male horses. (This allows for equal opportunity for ballot purposes). However when they meet in a mixed sex race the fillies and mares shall receive a weight allowance of 2kg and the younger horses are eligible for a weight allowance depending on the time of year the race is run.

BENCHMARK RACES

Each rating point is the equivalent of 0.5kg in the Metropolitan and Provincial 1 area excluding 81+, 87+, 89+ and 91+ in Provincial 1.

In Provincial 2 and Country the addition of "+" to a rating denotes an extra 0.5kg with the exception being 68+, 69+ and 73+ in Provincial 2.
